

# Your Shield Against Counterfeit Medicines

**Scan Plus** is a robust solution to prevent counterfeit medicines from infiltrating the legal distribution and supply chain. It empowers pharmaceutical manufacturers and Contract Manufacturing Organisations (CMOs) to comply with global serialisation and track-and-trace requirements, ensuring safety and compliance.

## Why Choose **Scan Plus**?

### Counterfeit Prevention

Safeguards legal distribution channels by enabling secure serialisation for pharmaceuticals.

### Improved Efficiency

Streamlines management and communication between Marketing Authorisation Holders (MAHs) and CMOs.

### Global Compliance

Fully compliant with regulatory standards, including the EU, US, and GCC Falsified Medicines Directives (FMD).

### Custom Solutions for CMOs

Offers tailored solutions for seamless integration with new CMO client partners.

## Key Features at a **Glance**

Easy Serial Number Requests: Simplifies serial number management for CMOs.

- End-to-end Serialisation Management: Tracks MAHs, CMOs, products, batches, and serial numbers efficiently.
- Customizable Data Submission: Supports DA, shipment, and end-of-batch file submissions.
- EU Serialisation with Topia: Integrates with v EU-Serialisation for enhanced functionality.

# Features That Set **Scan Plus** Apart

## Easy Serial Number Requests

CMOs can easily request and manage serial numbers with a user-friendly process.

## End-to-End Serialisation Management

Efficiently configure and track details of MAHs, CMOs, products, batches, and serial numbers.

## Customizable Data Submission

Supports multiple data submission formats including DA, shipment, and end-of-batch files for streamlined operations.

## EU Serialization with Topia

Seamlessly integrates with Topia EU-Serialization to support CMO serialisation activities.

## Serialization & **Compliance Management**

### Flexible Serial Number Format

Provides serial numbers in various formats, including SOAP Service, CSV, and Excel.

### Compliance Reporting & Audit Trail

Generates comprehensive compliance reports and maintains a secure audit trail for regulatory adherence.

## Collaboration & **Communication**

### Enhanced CMO and MAH Communication

Simplifies the management of products, batches, and serial numbers to improve communication between MAHs and CMOs.

### Customisation for New CMO Partners

Tailors solutions to meet the specific needs of new CMO clients, ensuring flexibility and seamless integration.

**Experience Scan Plus** Protect your supply chain, ensure compliance, and improve operational efficiency with Scan Plus. Schedule a demo today to explore how our platform can transform your serialisation and compliance processes.
